Glass Blowout 2011

Location:

Red Fern Glass Studio

428 CR 9351

Green Forest, AR 72638

Tentative schedule:

1pm-5pm, glass demos and open furnace time.

6pm dinner, sandwiches, veggies, hummus...

after dinner, campfire, if not too hot.

When you arrive try to drive down to the studio to check for parking places so the driveway and road don't get blocked by vehicles. There is some parking at the studio at the end of the drive and at the carports and turnouts between the studio and garden. Once those are filled, park along the drive past the garden if you can pull off far enough that others can get by.

Everything will get started around 1pm with glassblowing demos and opportunities for individuals to have a little furnace time, first come, first served. Food will be available for whenever people get hungry, sandwich fixings, veggies, fruit,

salad, potluck. There will be drinks of several kinds, soda, water, beer. There is room for tents if you want to camp or room in the studio for bedrolls. Usually a few people stay the night and we blow a little more glass Sunday morning.
